Fast Ultra HD

Notebooks and other mobile computers are getting thinner and smaller. This usually comes at the expense of connectivity. Thus, many notebooks don't have any video connections that are required by many display devices. The IB-DK2104-C provides assistance with a VGA, HDMI® and DisplayPort™ interface. The adapter is connected via a USB Type-C™ interface and can quickly be connected to one display with a resolutions of up to 3840x2160@60 Hz.

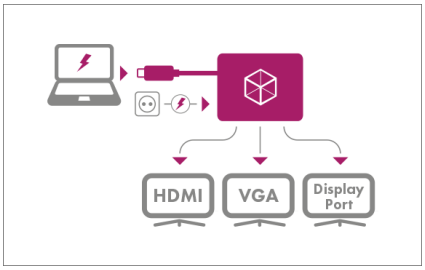
ICY BOX **IB-DK2104-C**
USB Type-C™ 3-in-1 video adapter



New or old

The IB-DK2104-C is designed to be connected to a computer (such as a notebook, etc.) with USB Type-C™ interface and DisplayPort™ Alt Mode support. A VGA, HDMI® or DisplayPort™ device can be connected and the adapter supports monitor resolutions of up to 3840x2160@60 Hz.

A great performance

Watch streamed videos with your notebook on a large TV screen or projector. Connected to an HDMI® or DisplayPort™ display device, the adapter can transmit both the video and the audio signal, no additional audio cable is required.

Efficient work

You can use the IB-DK2104-C to extend the display of your notebook to increase the available workspace or to mirror the content to do your work on a larger screen.
