- Hard on plaque, gentle on your gums
- Deepest clean while protecting your sensitive gums

#### Stay on track with personalised guidance

- Guidance to start and keep up healthy habits

#### Let ExpertClean adapt to your needs

- Personalised brushing experience
- BrushSync automatically selects the best mode for you
- Lets you know if you're pressing too hard
- Always know when to replace your brush heads

#### Enjoy a stylish and user-friendly design

- Simple to charge and style to boot
- USB charging travel case charges your handle anywhere

PHILIPS

## Features

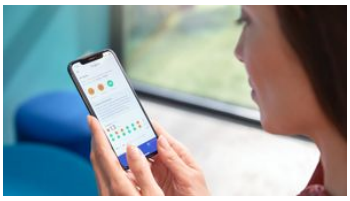
### Removes up to 10 x more plaque*

Know you're getting the deepest possible clean with The C3 Premium Plaque Defence brush head. The soft, flexible bristles are designed to curve around the contours of your teeth, giving you 4 x more surface contact** and up to 10 x more plaque removal from hard-to-reach spots.

### Up to 7 x healthier gums*

Focus on improving your gum health with the G3 Premium Gum Care brush head. Its smaller size and targeted gum-line bristles make it the perfect way to keep this area free of gum disease. People who use this brush head have up to 100% less gum inflammation* and up to 7 x healthier gums in just 2 weeks.*

### Progress Report



ExpertClean gives you the guidance you need to improve and maintain healthy brushing habits in between dentist check-ups. Built-in smart sensors let you know when you're using too much pressure and by connecting your brushing experience to the Sonicare app, a personalised Progress Report helps you stay on track and see how much you've improved over time.

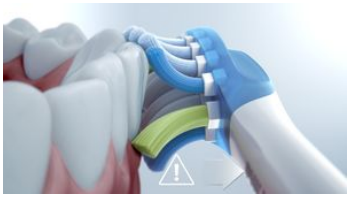
### 4 modes, 3 intensities

ExpertClean comes with Clean, White+, Gum Health and Deep Clean+ to take care of your brushing needs. Clean mode is for exceptional everyday cleaning, White+ is for removing stains, Gum Health provides a gentle yet effective clean for gums and Deep Clean+ gives you an invigorating deep clean. Three intensities allow you to choose between a higher setting to boost your clean and a lower one for more-sensitive mouths.

### Smart brush head recognition

Smart brush heads ensure you're using the right mode and intensity for the best possible clean. For example, if you're using the G3 Premium Gum Care brush head, your ExpertClean's BrushSync technology will automatically sync your brush head with the Gum Health mode to help give your gums a clean bill of health.

### Built-in pressure sensor



You might not notice if you're brushing too hard, but your ExpertClean will. If you need to ease off, the toothbrush will make a pulsing sound. It's a reminder to let your brush head do the work. 7 out of 10 people found this feature helped them become a better brusher.

### BrushSync replacement reminder

All brush heads wear out over time, so you'll want to keep an eye on yours to make sure you're still getting a great clean. Our BrushSync technology tracks how long you've been using your brush head for and how hard you've been brushing. The BrushSync replacement reminder on your handle and a short beep remind you when it's time to replace it.

### C3 Premium Plaque Defence

The Premium Plaque Control brush head is designed to give you your deepest clean yet. Soft flexible sides and bristles perfectly curve around the contours of your teeth, giving you 4 x more surface contact and helping target hard-to-reach spots*.

### Premium Gum Care brush head

The G3 Premium Gum Care brush head is designed to help you improve your gum health. Its smaller size and targeted gum-line bristles gently and effectively clean the gum line, where gum disease commonly starts.

ExpertClean 7500

### Long-life battery

Your ExpertClean will last for up to two weeks on a single charge with regular use.

### Charge while on the go

Now you can charge your toothbrush while on the go with the new charging travel case. Charging can be done with a USB port or wall outlet.
