Highlights

Ultra lightweight headband
The ultra lightweight headband, together with the ear cushions, are so light and comfortable that you'll hardly notice you're wearing it, even after a long time.

30 mm powerful speakers
30 mm powerful speakers deliver full balanced sound.

Mute and volume control
With the in-line mute and volume control, you can have full control over your calls and music

Highly sensitive in-line mic
For clear and uninterrupted online conversations, this PC headset is the perfect solution as it comes with a highly sensitive in-line microphone that picks up your voice.

Swivelling ear shells
You can just swivel the ear shells and make the headset flat, so that you can carry it easily on-the-go.

Combined-Plug design
The Combined-Plug design provides plug and cable management for enjoying music on a PC. Most PC headsets have 2 audio jacks — 1 for the mic and 1 for the speaker. But if you're listening to your favourite music, you don't want the other jack bouncing around. Our Combined-Plug design is a simple but clever feature that offers a neat way to park your other jack safely. No dangling jacks. No floating wires. And no hassle.
