PHILIPS

Highlights

Diffused warm white light

This light uses the latest energy-saver lamp technology by Philips to provide a flood of warm white natural light. Its diffused light will illuminate your room with warm white light, allowing you to combine functionality and respect for the environment. Diffused light is perfect for general illumination.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 20.000 hours (which equals 20 years on basis of an average use of 3 hours a day with an amount of at least of 13.000 on/off switching cycles). With the Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

High light quality

An LED lighting module of 7.5 W produces the equivalent light output as a 40 W incandescent lamp (350 Lumen). Save energy with strong light output.

High Power LED

The LED module of this lamp is a uniquely developed solution by Philips, combining 3 LEDs in a synthetic and aluminium housing. This technique enables an optimal light output and a 100% uniform light colour.

On/off switch on article

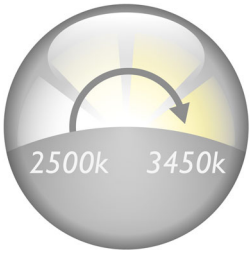

With the button discreetly integrated into the article, you can easily switch the light on and off.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

Tunable white

Who said that choosing your LED light colour was not possible? This lamp introduces tunable white: you can choose your preferred light colour from warm white to cool white when installing your lamp. There are 4 light colour options offered: 2500, 2700, 3100 and 3450 Kelvin. Once the light colour is installed, most lamps can be dimmed normally with a wall dimmer (excluded).

Specifications

Design and finishing
- Material: aluminium
- Colour: chrome

Product dimensions and weight
- Height: 11.1 cm
- Length: 24.6 cm
- Width: 12.2 cm
- Net weight: 1.320 kg

Technical specifications
- Mains power: Range 220 V–240 V, 50-60 Hz
- Bulb technology: LED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 7.5 W
- Maximum wattage replacement bulb: 7.5 W
- Light colour: cool white
- Lamp lifetime up to: 20,000 hrs
- Beam angle: 105°
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: II - double insulated

Service
- Warranty: 2 year(s)

Packaging dimensions and weight
- Height: 28.7 cm
- Length: 15.8 cm
- Width: 10.5 cm
- Weight: 1.404 kg

Miscellaneous
- Especially designed for: Living Room and Bedroom
- Style: Modern
- Type: Table lamp
