AEG

PX7 Portable RAC A+

PX71-265WT

The tech that connects comfort with style
Modern homes require technology that is as beautiful as it is smart. AEG has crafted its PX7 with a patented cylindrical design. The portable air-conditioner can be controlled remotely from anywhere.

Modern homes require technology that is as beautiful as it is smart. AEG has crafted its PX7 with a patented cylindrical design. The portable air-conditioner can be controlled remotely from anywhere.

Product Benefits & Features

Style and efficiency. Combined
The compact and stylish cylindrical shape of the portable air-conditioner makes it one of a kind, while the circular louvres help you distribute the air evenly.

Consistent comfort. Now enabled
The patented AirSurround System in the portable air-conditioner enables consistent comfort. This is because its innovative cylindrical design sends air spiralling upwards rather than inwards. Creating indirect airflow that distributes air more evenly.

Absolute control. Via the app
Connect the portable air-conditioner to the dedicated AEG Home Comfort app on a smart phone to control the temperature at home remotely.

Installation. Unrivalled.
The window kit enables a 30-second installation – the quickest on the market. It complements the minimalist design of the portable air-conditioner and creates a discreet exhaust via your window. Secure in place using the lock then seal using the adjustable strap.

Comfort. Within reach
The minimalistic remote control features a stylish, circular design with sleek, intuitive controls. Completely magnetic, it attaches securely on top of the portable air-conditioner for convenient display and seamless storage.
