- Touch panel for intuitive playback and volume control

Richer sound for watching TV and movies

- Dedicated centre-channel speaker for superior voice clarity
- Dolby Digital and Pro Logic II surround sound
- Virtual Surround Sound for a realistic movie experience
- Wireless subwoofer adds thrill to the action

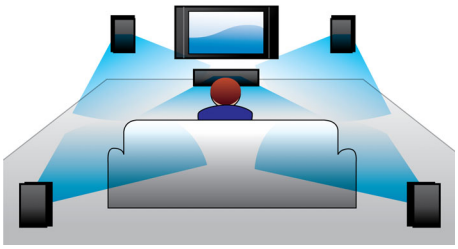
PHILIPS

Soundbar speaker
3.1 CH wireless subwoofer Bluetooth® and NFC, HDMI ARC, 200 W

HTL3160B/93

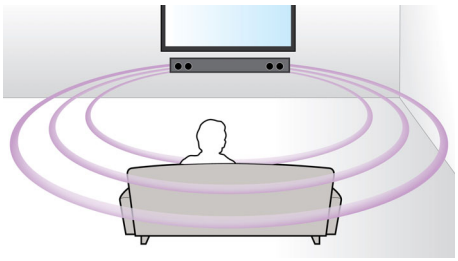
Highlights

Dolby Digital and Pro Logic II



A built-in Dolby Digital decoder eliminates the need for an external decoder by processing all six channels of audio information to provide a surround sound experience and an astoundingly natural sense of ambience and dynamic realism. Dolby Pro Logic II provides five channels of surround processing from any stereo source.

Virtual Surround Sound

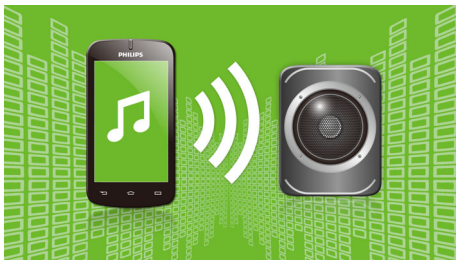


Philips Virtual Surround Sound produces rich and immersive surround sound from a less than five-speaker system. Highly advanced spatial algorithms faithfully replicate the sonic characteristics that occur in an ideal 5.1-channel environment. Any high quality stereo source is transformed into true-to-life, multi-channel surround sound. No need to purchase extra speakers, wires or speaker stands to appreciate room-filling sound.

One-touch with NFC

Pair Bluetooth® devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC-enabled smartphone or tablet on the NFC area of a soundstage to turn the soundstage on, start Bluetooth® pairing, and begin streaming music.

Bluetooth



Bluetooth is a short-range wireless communication technology that is both stable and energy efficient. The technology allows for easy wireless connection to other Bluetooth devices, so you can play your favourite music from any smartphone, tablet or laptop, including the iPod or iPhone, with a Bluetooth-enabled speaker.

Audio in

Audio in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player or laptop via a simple connection to your Philips home cinema system. Simply connect your audio device to the Audio in jack to enjoy your music with the superior sound quality of the Philips home cinema system.

USB playback

Simply plug in your device to the USB port on your Philips Soundbar speaker. Your digital music will be played directly from the device. Now you can share your favourite moments with family and friends.

Specifications

Sound
- Sound Enhancement: Night Mode, Treble and Bass Control, Virtual Surround Sound, Audio sync, Music, Voice
- Sound System: Dolby Digital, Dolby pro-logic 2
- Speaker output power: 32W x 3
