NGS WIRELESS MOUSE BOW MINI BLUE

5 BUTTONS OPTICAL WIRELESS MOUSE, ERGONOMIC, SMALL SIZE

This device incorporates a 2.4 GHz radio frequency **wireless** technology and advanced optical sensor for accurate control. It can communicate with the computer from a distance of up to 10 meters.

It features **5 buttons** to make everything you do on your laptop easier, from surfing the Web to navigating your Social Networks with precision clicking, pointing and dragging (Forward/Backward/DPIs) and a **scroll** wheel that gives you the precision you need when navigating lists, slides and images.

Its glossy blue finish combines with contoured rubber sides for total comfort and better grip.

A careful combination of different materials and textures has given birth to a work of art that is as beautiful as it is precise.

Thanks to its optical sensor and built-in **DPI switch button**, you can switch DPI between **800/1200/1600** and choose the mouse speed.

This mouse comes with a **Nano receiver** which can be placed under the mouse, or it can remain connected to the laptop without risk of fall or loss. **"Plug and Play"** installation, you just have to plug it in and start working.

Finally, **NGS Bow Mini** has been conveniently designed for **right-handed** users.

Its **compact-sized** is perfect for notebooks and its very comfortable to transport.
