- State of the art ProCeramic+ coating is 5x harder

Highlights

Inner pot with handles

Easy carrying out the innerpot when you cook different varieties.

Automatic keep warm

Keep warm function automatically starts to work after rice is cooked and ensures your rice remains hot and fluffy for up to 48 hours

Extra thick alloy

Extra thick alloy ensures every grain is cooked perfectly

Smart 3D heating system

Smart 3D heating system cooks the rice from all directions, delivering great tasting rice grain by grain

Fully detachable inner lid

Fully detachable inner lid for easy cleaning. The inner lid also encompasses a unique design that can efficiently remove foam and prevent overflow during cooking

stainless steel body

Durable stainless steel body for long lasting performance

Non-stick coating

High gloss non-stick coating by Whitford for easy cleaning

Evenly cooking

Outer layer contains copper element for even cooking

ProCeramic+ coating

ProCeramic plus: up to 5 times more durable than conventional rice cookers*. Its super scratch resistant surface is for longer usage (*Philips rice cooker inner pot is made of 5-layer ProCeramic+ and conventional rice cooker inner pot is made of non-stick coating)

Extra Large capacity

Extra large 2.0L capacity, ideal to serve up to 14 people
