- No descaling is needed, thanks to the PureSteam technology
- 3 steam levels for different kinds of fabrics

Reliable and safe
- Safe to use on all garments
- PVC free silicon steam hose
- Automatically switches to standby mode for safety

PHILIPS

Garment Steamer
2000 W 3 steam levels, Double pole with Hang&Lock

GC612/36

Highlights

Penetrating powerful steam

The innovative PureSteam technology is fundamentally different from other steamers. With up to 3 bar pump pressure, it generates powerful steam which penetrates deep into the garments, enabling you to remove creases with only a few strokes.

Powerful steam over the years

Other steamers are easy to lose steam performance over time due to scale build-up, even if you clean it regularly. With the innovative PureSteam technology, the heater is automatically descaled while generating steam. This prevents scale from building up. It is so effective that the steam is powerful for years to come*.

No descaling needed

Steamers need to be descaled regularly to ensure steam performance. With our new PureSteam technology, the heater is automatically descaled while generating steam, so you don't need to worry about it.

3 steam levels

Set your preferred steam level for optimal results on different kinds of fabrics.

Precision tips

The Precision tips of the steamer head enable you to reach the challenging areas, such as the collar, the shoulder, and the in-between buttons, giving you precise results.

Safety auto off

When the water runs out, the power light will start blinking to remind you. If the product hasn't been used for another 8 minutes, it will go to standby mode automatically, ensuring safety.

Safe to use on all garments

The steamer is safe to use on all fabrics. It is a great solution for delicate fabrics like silk and cashmere.

PVC free silicon steam hose

The steam hose is made of silicon material which is the safe and healthy choice for use with steam. As the safety and health of your family is important, no PVC is used in the steam hose.

Specifications

Technology
- PureSteam Technology

Fast crease removal
- Continuous steam: up to 40 g/min
- Power: 2000 W
- Pressure: Max 3 bar pump pressure
- Ready to use: <1.5 min
- Variable steam: 3 levels

Easy to use
- Safe on all fabrics: Even delicates like silk
- Soleplate name: SmartFlow Plus steam plate
- Water tank capacity: 2000 ml
- Detachable water tank
- Hang&Lock
- Hose length: 1.3 m
- Power cord length: 1.6 m
- Refill any time during use
- Safety auto off
- Silicone steam hose
- Tap water suitable

Scale management
- Descaling and cleaning: Auto de-calc

Accessories included
- Brush
- Collar aid
- Glove for extra protection
- Pants hanger

Issue date 2016-08-09
Version: 1.1.1
