Lumo10 RGB Fast Wireless Charger

Fuss-Free Wireless Charging

There's no more need to hunt for a cable with the Lumo10 RGB Fast Wireless Charger 10W. Touch-and-charge any Qi-compatible smartphone easily and quickly – and enjoy the charger's stylish design and RGB light show on the side.

Touch-and-Charge

Could it be any easier? Just connect the charging pad to a USB charger (not included), place your phone on the charger's surface and it will begin powering up instantly. No need to bother removing your phone case either; just touch and charge!

Fast and Safe

The Lumo is fast-charging*, cleverly generating the correct charging power for your phone (7.5W for iPhone and 10W for Samsung Galaxy). Apart from charging speedily, it also does so safely. Its integrated Smart Safety Design with FOD (Foreign Object Detection) prevents interference from, and damage to, metal objects. This way, the pad can't damage your bank card's chip (when stored in your phone case) and your keys can't damage the pad. *For fast-charging, a USB charger compatible with Quick Charge 2.0/3.0 is required

Have Some Fun with RGB

Charging your phone doesn't have to be boring. With its sharp-looking round design and RGB colour show, you can add some fun to your desk. A rainbow pattern appears whilst charging, the lights turn green when your phone is fully powered-up, and turn off automatically when your phone is removed.
