- Detachable water tank for easy filling
- Swing filter holder for easy filling of coffee
-
- Dishwasher-proof parts for easy cleaning

Highlights

1400 Watt

The high-speed pump of your Philips coffee machine will prepare your coffee faster and creates the optimal coffee aroma.

Strength select

Adjust the intensity of your coffee to mild, medium or intense coffee.

Decalcification indicator

The Philips coffee machine will remind you when to descale your appliance. Regular descaling ensures your coffee tastes its best and prevents build-up of limescale from tap water.

Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

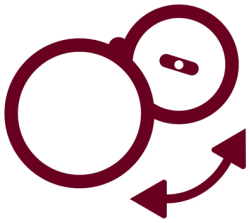
Auto shut-off

Forgotten to turn off the coffee machine? Don't worry! 2 hours after brewing the coffee, the coffee machine will shut off automatically to save energy.

Detachable water tank

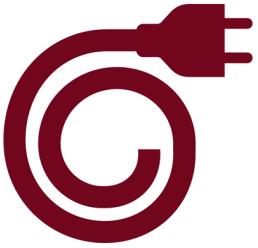
The water tank is detachable, which makes it easy to fill up with water or clean the water tank.

Swing filter holder

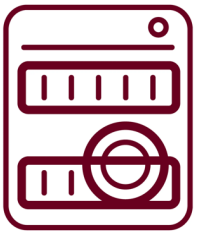


The filter holder is opened by swinging it to the side, which makes it easy to fill up with coffee. The filter holder is also detachable for easy cleaning.

Cable storage



Dishwasher-safe parts



The jug and filter holder can be easily cleaned in the dishwasher.
