IKE95471FB Built-in Hob

Versatility for every purpose

Preparing many dishes at the same time or cooking for a dinner party? This hob is made for those occasions when you need more options, with equally tasty results. Its FlexiBridge feature means you can customize your own cooking area, combining up to 4 segments with a consistent and even heat distribution. It’s ideal for large or long pans, or for cooking lots of dishes

Smoother, speedier heat shifts

From boiling to simmering to keeping warm: when you need repeated quick heat changes to create a dish, use PowerSlide. Simply slide your pan from heat to heat, without stopping to adjust temperatures up and down as you’re cooking. PowerSlide lets you fix different pre-set heats on part of your hob: choose your own, or use the hob’s own pre-sets.

Perfect control

'Direktouch' controls use the very latest digital technology to ensure precise heat selection.
