NGS PREMIUM SPEAKER WILD SKA 3

1200W DOUBLE15" WOOFER SPEAKER USB/MICRO SD/BT(TWS)/AUX IN

NGS Wild Ska 3 is a powerful and enormous DJ high-power music system compatible with Bluetooth technology and TWS. Brand new design, 1200W of peak power, 2x15" woofer // 2x6" tweeter and more features to enjoy the party out loud

Choose your path
This speaker is compatible with Bluetooth 4.2 +EDR Technology, USB port, Micro SD, Aux Input, and you can pair two devices of the Ska family simultaneously and increase the sound power thanks to its True Wireless Stereo Technology.
Its Audio output allows you to connect in series several devices through a 3.5 mm jack cable in any mode.

Coloured lights
Bring a feast-oriented environment with the built-in multi-colored LED speaker lights. With different speaker patterns syncing to the beat of your favorite tracks, you'll be able to fix one of the three colors or even turn them off from the button located on the rear side or with the remote control.

Back and forth
Its modern and compact design incorporate 3 handles, two on the sides and one at the rear, it also includes transport wheels for maximum portability and convenience.

The king of the dance floor
It includes one microphone input and Karaoke function that once is activated, reduces the music sound when the microphone input signal is detected. Furthermore, it´s amplified guitar input will allow you to enjoy your melodies.

1,2,3. Recording!
It includes a function to record the microphone or guitar input signal on a USB or micro SD memory connected to the speaker

Alone or accompanied?
Depending on the different types of music you want to play, you can select 6 different equalization modes: Normal, Rock, Jazz, Classic, Country and Pop.
The Mega Bass function will enable you to enhance the bass to an amazing new level.

Uncomplicated
NGS Wild Ska 3 outstands for its ease of use and convenience. It is possible to take control with the remote control that is included and adjust the volume and turn on and off both manually, directly from the music system as well as through the remote control.
Equipped with separate mic and guitar volume controls.
It´s useful LED screen lets you easily manage your listening experience showing practical info such as: Mode, Playback time, track number playback etc.
