EW3568

USB Headset with microphone

Stereo headset to call via the Internet!

- Ideal for video meetings and listening music
- Adjustable headband and flexible microphone
- Inline volume control and mute switch
- Extra long cable: 2.1 m
- Plug and play: no drivers and additional power supply needed

DESCRIPTION

Nowadays programs like Skype allow you to call other Skype users toll-free. Over the Internet that is! With Skype you can also call normal and mobile telephones, almost for free. No wonder that this solution increases in popularity. The Ewent Headset with Microphone offers a high-quality headset for conversations in a comfortable way. The headset has a good microphone, so that other people can hear you well. Moreover, the headset is very comfortable to wear. And that is just very pleasant when having long conversations. You can easily connect the headset to your computers soundcard. Apart from that, the headset can also be used with all chat programs that support sound.
Note: The quality of conversations via the Internet depends on the speed of the Internet connection. When you call to regular or mobile phone numbers, there is a cost attached.
