Introducing the sheer blouse protector
Your knitwear, cotton tees, business shirts – the clothes you wear day in, day out – need special care to keep them feeling special. Using low temperatures without extending drying times, AEG SensiDry® Technology ensures that garments are never subjected to unnecessary heat. Helping toensure that the clothes you wear often look

Your knitwear, cotton tees, business shirts – the clothes you wear day in, day out – need special care to keep them feeling special. Using low temperatures without extending drying times, AEG SensiDry® Technology ensures that garments are never subjected to unnecessary heat. Helping toensure that the clothes you wear often look

Product Benefits & Features

Safe, low temperatures
AEG SensiDry technology draws moisture out of fabrics at half the temperature of conventional tumble dryers, without significantly extending the drying time. This ensures that fabrics are never subject to unnecessary heat. Your clothes will keep the textures they had the day you bought them, for longer. And the low temperature

Saving you time and energy every day
Our dryers feature ProSense technology, which uses advanced humidity and temperature sensors to adjust the drying time and energy consumption for every size of load - whether it's a day's or a week's worth of washing. This saves time and energy, while gently protecting the clothes that you love and

Shorter drying cycles, better care
Thanks to improved air flow design, AEG dryers dry faster and more efficiently than conventional heat pump driers. So your clothes are better cared for even though the drying cycles are shorter.

Fuss-free filter for efficiency
Only AEG dryers feature the ÖKOFlow Filter System, an extremely efficient filter that is easy to reach and clean. Conventional dryers have multiple filters. If you don't clean them all, energy consumption increases. With only one filter, an AEG machine dries every load effortlessly and maintains its

Built-in protection for your clothes
All AEG dryers have our ProTex gentle drum, specially designed to take care of your clothes. With this patterned drum, your clothes benefit from the most efficient airflow and have room to stretch out for less tangling and creasing.

- Medium sized LCD display
- Fewer loads and less hassle, saving upto 50% in energy used.
- Heat pump condenser dryer
- ProTex soft drum
- Delay start option
- Sensor dryer
- Time controlled drying
- Bed linen programme
- Cotton programmes

7000 Series Heat pump Tumble Dryer 8.0 kg

Product Specification

Second Generation Energy Class	A++	ProdPartCode	ER Excl
Condensation efficiency	B		
Weighted condensation efficiency	81		
Energy cupboard dry 1000	1.93		
Annual energy consumption, kWh	235		
DryingTechnology	Heat pump		
Drying Capacity (kg)	8.0		
Drum volume	118		
Sound Power Level	66		
Dimensions (mm) (HxWxD)	850x596x638		
Depth max, mm	663		
Cord Length	1.45		
Voltage	230-240		
Required Fuse	13		
Frequency	50		
Motor System	Asynchronous		
Door hinges	Left reversible by user		
Tank Capacity	5.28		
Conditioning	Bed linen, Cotton ECO, Easy iron, Mix, Silk, Time, Wool, Sports		
Cotton Program	Cupboard dry, Extra dry, Iron dry		
Synthetics Program	Cupboard dry, Extra dry, Iron dry		
Included accessories	None		
Optional Accessories	Direct drain hose, Stacking kit		
Program Description	English
