6000 Series Condenser Tumble Dryer 7.0 kg

T6DBG720N

Meet the everyday quality preserver
Clothes that are exposed to too much heat and motion simply will not last. Our ProSense® Technology tumble dryers fine-tune cycles to ensure that they take the minimum time necessary with no over-drying. So your everyday pieces are dried efficiently, monitored constantly and cared for, cycle after cycle.

Clothes that are exposed to too much heat and motion simply will not last. Our ProSense® Technology tumble dryers fine-tune cycles to ensure that they take the minimum time necessary with no over-drying. So your everyday pieces are dried efficiently, monitored constantly and cared for, cycle after cycle.

Product Benefits & Features

Saving you time and energy every day
Our dryers feature ProSense technology, which uses advanced humidity and temperature sensors to adjust the drying time and energy consumption for every size of load - whether it's a day's or a week's worth of washing. This saves time and energy, while gently protecting the clothes that you love and wear every day.

Built-in protection for your clothes
All AEG dryers have our ProTex gentle drum, specially designed to take care of your clothes. With this patterned drum, your clothes benefit from the most efficient airflow and have room to stretch out for less tangling and creasing.

Fully reversible door. Find the perfect position
This tumble dryer comes with a fully reversible door. The option of placing the handle in four different positions means you'll have complete accessibility, however you choose to arrange your appliance with its washing machine counterpart.

CARING CREASE REDUCTION
Our dryers rotate in a way that protects your clothes. The special ProTex gentle drum has a reverse action so it can move in both directions, stopping garments twisting and tangling together. As a result, you clothes come out evenly dried and with fewer creases.

CHOOSE THE RIGHT TIME TO DRY
Delay Start gives you the freedom to do your tumble drying at the time you prefer. The Delay Start function allows you to automatically set the start time of your drying cycle.

- Fewer loads and less hassle, saving upto 50% in energy used.
- Condenser tumble dryer
- ProTex soft drum
- Delay start option
- Sensor dryer
- Time controlled drying
- Bed linen programme
- Cotton programmes
- Delicate programme
