Automatically switches lights

Trigger your smart lights with movement. The battery-powered Hue motion sensor can be easily installed anywhere in your home.

Limitless possibilities

- Requires a Philips Hue bridge
- Daylight sensor detects light
- Mount the motion sensor anywhere
- Customise motion sensor lights

Issue date: 2025-12-24 Version: 0.564

Highlights

Requires a Philips Hue bridge

This product requires a connection to the Philips Hue bridge

Daylight sensor

The Hue Motion sensor's integrated daylight sensor detects when there is still enough daylight so that lights do not turn on until you need them. If it's still too dark, adjust the light sensitivity of the sensor in the Philips Hue app to personalise when you'd like the motion sensor to activate.

Mount anywhere

The motion sensor for Philips Hue smart lights is battery powered and completely wireless, allowing you to install anywhere inside your home. Place it on a shelf, mount it on a wall or ceiling with a single screw, or place it on any magnetic surface with the included magnet.

Customise motion sensor lights

With the Hue motion sensor, you can customise the lights that come on and their intensity depending on the time of day. During the evening, set the motion sensor to trigger gentle night lights to guide you in the dark. During the day, trigger crisp white light to flood your halls.

Specifications

Design and finishing
- Colour: White
- Material: Synthetic

Environmental
- Operational humidity: suitable for use indoors
- Operational temperature: 0 °C - 40 °C

Extra feature/accessory incl.
- Portable: Yes

Guarantee
- 2 years: Yes

Product dimensions and weight
- Net weight: 0.065 kg
- Overall height: 55 mm
- Overall length: 30 mm
- Overall width: 55 mm

Service
- Warranty: 2 year(s)

Technical specifications
- Weight: 65
- Battery type: AAA (LR03)
- IP code: IP42 | Wire-protected and dripping-proof

The bulb
- Software upgradable: Yes
