A NEW ERA FOR GAMERS

ABYSM

DANUBE HRON WHITE

We landed on the European market with a new Tower of the DANUBE series, the HRON.

Its large ARGB front fan protected by a metal mesh front gives it character and great visual impact.

It combines excellent airflow performance and a side window that allows us to see the interior setup.

In addition, it has spacious and efficient interior spaces, allowing it to have hardware expandability, high cooling performance and abundant storage space.
