LEKTRA™

ELECTRIC CLEANERS

BATTERY POWERED POOL VACUUM BROOM

Ideal for Cleaning Small Pools & Spas

LEKTRA™ is ideal for cleaning small soft wall pools, kiddie pools and spas. Its lightweight design ensures quick elimination of sand, small gravel and other small-sized debris from the bottom of a pool or spa with minimum effort.

FEATURES

- Battery-powered pump creates suction, eliminates the need for hoses or electrical cord.
- Easily turned on / off at the press of a soft-touch button.
- Connects to a 2-section pole with a total reach of 150cm/ 5ft when fully assembled (included).
- Also connects to a standard telescopic pole (not included).
- Underside wheels for easy gliding.
- Underside brush scrubs away debris from the pool floor.
- Quick to assemble, no tools needed.

- Recommended for: small pools up to 305cm / 10ft, spas and spot-cleaning

SPECIFICATIONS

- Flow rate: 24L/min / 6.3gal/min
- Debris capacity: 0.3L / 0.08gal
- Working time: up to 90min on fresh batteries (depending on battery brand)
- Requires 8 AA / LR6 batteries (not included)

INCLUDED

- 1 filter bag
- 1 pole (2-section), with a total length of 93cm/ 3ft

Packaging - Packed in a color box
BC10CBX/EU
BC10CBX/US
