The adaptable surface for every pan
With MaxiSense® zones pots and pans have maximum space and choice of position, as long as the cross is covered

With MaxiSense® zones pots and pans have maximum space and choice of position, as long as the cross is covered

Product Benefits & Features

Hob2Hood - Cook without distractions
This hob has Hob2Hood, a useful feature that automatically controls your cooker hood and lights. It means you don't get distracted by trying to regulate the fan when you're at crucial cooking moments: you can simply concentrate on getting your dish right. But if you'd rather adjust the fan speed yourself, there are manual

The adaptable surface for every pan
The MaxiSense® induction hob has self-sizing cooking zones. That means each zone detects the sizes and shapes of the pans you're using, however large or small, and sends immediate heat to fit their bases exactly. So you have complete control, and the hob responds just the way you need it to.

Perfect control
'Direktouch' controls use the very latest digital technology to ensure precise heat selection.

Intense rapid heat
No more waiting around for pots to boil. The PowerBoost button gives you an instant burst of heat that boils water in under 90 seconds* – that's even faster than an electric kettle. It's perfect for tasks like boiling potatoes, and other quick cooking jobs too, like searing meat.

- Automax function
- Powerful booster
- 15 stage digital power level displays
- Child safety control lock
- Control lock
- Auto safety switch off
- Front right: 1 small induction zone with booster
