Highlights

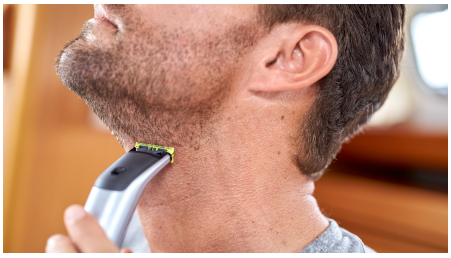
Unique OneBlade Technology

The Philips OneBlade is a revolutionary new electric grooming technology designed for men who wear facial styles and grow beards. OneBlade is designed to trim, edge, and shave any length of hair.The unique OneBlade shaving technology integrates a fast moving cutter (200x per second) with a dual protection system – giving you an efficient comfortabe shave on longer hairs. OneBlade does not shave too close – so your skin stays comfortable.

Trim it down

Trim your beard to a perfect, even length with the included adjustable precision comb. Dial up one of the 14 locked length settings to get everything from a 5 o'clock shadow to a tight trim, to a longer beard style.

Edge it up



Get a perfect edge on your style with the dual-sided blade. You can shave in either direction to get great visibilty and see every hair that you're cutting. It stays comfortable even in sensitive areas, so it's fast and easy to line up your style in seconds.

Shave it off

OneBlade is not too close, so your skin stays comfortable. Go against the grain and shave off any length of hair with comfort.

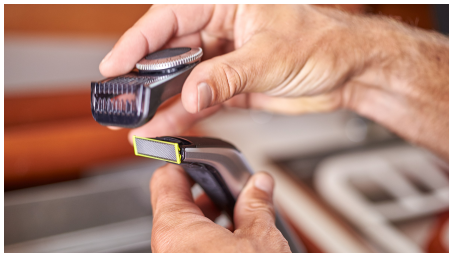
Contour following

OneBlade follows the contours of your face allowing you to effectively and comfortably trim and shave all areas of your face.

Dual-sided blade

Style your edges and create clean lines by moving the blade in any direction.

14-length precision comb



The versatile precision trimming comb offers length settings from 0.4mm to 10 mm, giving you an even trim at exactly the length you want.

Durable OneBlade

The blades are designed for lasting performance. For optimal performance, you will only need to replace the blade every 4 months*. Replacement is easy and hassle free.

Wet & dry

OneBlade is water resistant, so it is easy to clean: just rinse it under the tap. You can also shave with or without foam - whichever you prefer.

90 min Li-Ion battery

Rechargeable Li-Ion battery delivers 90 minutes of constant styling power after a 1 hour chrage.
