USB-A, Six Buttons with Scroll Wheel, 3200 dpi, Ambidextrous, Colorful LED Lighting, Black

Part No.: 179256

EAN-13: 0766623179256 | UPC: 766623179256

Wired Optical Gaming Mouse with six buttons and LEDs - Perfect precision for intense immersion

The Manhattan Wired Optical LED Gaming Mouse combines modern design with advanced precision and high-stabilization performance. Its top-mount push-button instantly shifts resolution from 1200, 1600, 2000 and 3200 dpi to suit a wide range of applications, including gaming or daily computing tasks. Color-changing LEDs make your gaming experience truly immersive. Its full-sized shape is suitable for left- and right-handed gamers, and its six-button configuration (right and left, scroll wheel, page forward and back, dpi adjustment) provide direct access to essential commands with minimal wrist movement. A non-slip texture applied to critical surfaces provides a secure, comfortable grip. Plug-and-play capability with Windows®, Mac® and Linux® compatibility makes installation quick and easy.

Features:

- Precise, accurate optical sensor and sturdy construction for agile, reliable performance
- Ergonomic shape for the most comfortable hand positioning and wrist support to reduce fatigue, even during prolonged use
- Top-mount, push-button control to instantly shift resolution from 1200, 1600, 2000 and 3200 dpi, perfect for daily work or gaming
