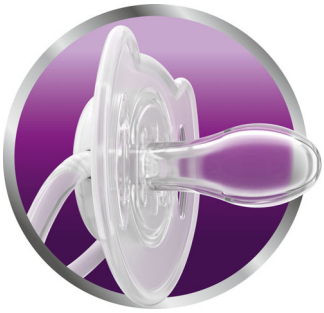
Highlights

Orthodontic nipple

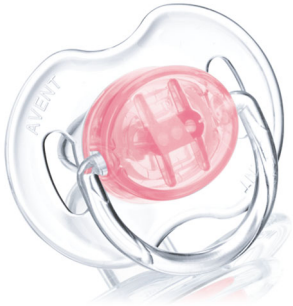
Philips Avent flat, drop-shaped symmetrical nipples respect the natural development of your baby's palate, teeth and gums, even if the pacifier ends upside-down in the mouth.

User-friendly silicone nipples



The Philips Avent silicone nipple is taste and odor-free so it's more likely to be accepted by your baby. The silicone is smooth, transparent, easy to clean and it doesn't get sticky. The nipple is strong, long-lasting and won't become mis-shapen or discolored over time.

Security ring handle



For easy removal of the Philips Avent pacifier at any time

Snap on hygienic cap

To keep sterilized nipples hygienic.

Can be sterilized

Can be sterilized

Dishwasher Safe
