Core Twist Tablet & iPad Mount in Black

The Core Twist is a modern, minimal tablet and iPad mount designed for low-level countertops in customer-facing spaces.

Its built-in tilt, flip, and rotation make it easy to adjust the screen for the perfect angle or share content with customers. The tall, slim profile fits neatly on reception desks, retail checkouts, and self-service kiosks where space and style matter.

As part of our Core Range, the tablet is secured using a super-strong adhesive pad, delivering a sleek, minimalist design without the need for an enclosure. The included 180-degree USB-C power cable keeps your tablet charged, while the integrated cable grip prevents it being accidentally disconnected.

Core Twist is compatible with all major tablets, including Apple, Samsung, and Microsoft devices. See tech specs below for supported models.

- - Includes 2 meter 180 Degree USB-C to USB-C Cable.
- - Run the charging cable through the inside of your floor stand to keep the tablet kiosk powered while being neat & tidy. You can also store your power adaptor or a battery pack in the base.
- – Weighted base prevents tipping keeping the stand stable during user interaction without the need for permanent fixing.
- – Mounting holes allow you fix to the floor if required (fixings not included).
- – Set in portrait or landscape depending on your content.
- – Simple and fuss-free installation with clear instruction manual.
- – Need to have an adjustable screen angle? You can add tilt as an optional extra in the check-out process.
- – Need to get your message across from a distance? Checkout our Front and Placard Branding Boards.
