- Fits your cup thanks to the adjustable coffee spout

Easy to clean and maintain
- Delight without hassle: high capacity in a compact design
- Easy cleaning thanks to the fully removable brewing group
- Auto-cleaning cycle & descaling program

PHILIPS

Features

CoffeeSwitch

Finally the taste of filter coffee from a full automatic espresso machine! Enjoy your morning coffee or your strong espresso by simply pulling the lever. The unique CoffeeSwitch allows you to choose the perfect type of coffee for any moment or mood, from freshly ground beans.

Integrated milk carafe

Enjoy super creamy cappuccinos at the perfect temperature, in the easiest way possible. Simply pour milk into the carafe, plug it into the machine, and select your preferred beverage. Whether it's a cappuccino or frothed milk, your drink will be served within seconds, with a splash-free flow at the ideal temperature.

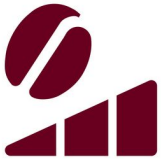
100% ceramic grinders

Say goodbye to the taste of burned coffee thanks to 100% ceramic grinders that are designed not to overheat the beans. Ceramic material also ensures long-lasting performance and silent operation.

Adjustable grinding settings

You can adjust the granularity of the grinders at 5 different levels.Choose the finest grinding for a full bodied espresso, all the way up to the coarsest for a lighter coffee, all according to your preferred taste.

Customize your coffee



You will always get a perfect cup of coffee brewed to your personal preference thanks to the temperature, length and strength selection. Moreover, the memo function allows you to save the coffee length for each drink. Enjoy a superb coffee in your favorite cup, all at the touch of a button.

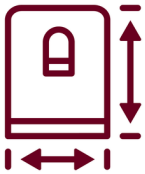
Intuitive Display

The intuitive display shows you all relevant information to easily interact with your machine and get the best performance. The buttons on the front panel offer you a selection of one-touch beverages ready at your fingertips.

Adjustable coffee spout

No matter the size of your favorite glass or cup, with one movement the coffee spout adjusts so that all the aromas are preserved and your coffee stays perfectly hot, right in your cup. At its highest position the spout can even fit a 5.9 in. (15 cm) latte macchiato glass.

High capacity & compact design

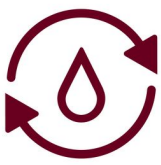


Enjoy more room and go longer without refill thanks to the high-capacity bean, water, and waste containers in a super-compact design. This smart, fully automatic machine provides you with maximum convenience, top notch performance, and large capacities (a 60.8 oz. (1.8 l) water tank, 16.9 oz. (0.5 l) milk carafe, 0.5 lb (250 g) bean container, and a waste container capacity of up to 15 servings).

Fully removable brewing group

The brewing group is the heart of every fully automatic coffee machine, and should be cleaned once a week. Our brewing group is easily accessible from the side, and can be removed with just one click for easy washing under the tap.

Auto-cleaning & descaling



This espresso machine is designed to automatically clean its coffee circuit with water when starting up or turning off to ensure a great, fresh taste with each cup of coffee. Regular descaling prolongs the life of your espresso machine. This machine will not only warn you when descaling is needed, but will guide

you through the automated descaling process with clear on-screen messages when necessary.
