With thermal jug, Made in Germany, Black

HD7692/90

Highlights

1400 Watt

The high-speed pump of your Philips coffee machine will prepare your coffee faster and creates the optimal coffee aroma.

Strength select

Adjust the intensity of your coffee to mild, medium or intense coffee.

Decalcification indicator

The Philips coffee machine will remind you when to descale your appliance. Regular descaling ensures your coffee tastes its best and prevents build-up of limescale from tap water.

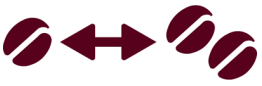
Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

Direct automatic shut-off

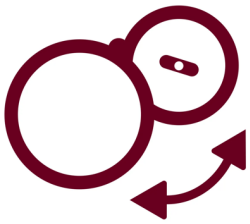
After brewing your coffee, the coffee maker switches off automatically for energy-saving and safety reasons. The thermal jug will ensure that the coffee stays hot.

Detachable water tank



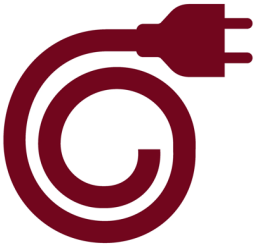
The water tank is detachable, which makes it easy to fill up with water or clean the water tank.

Swing filter holder



The filter holder is opened by swinging it to the side, which makes it easy to fill up with coffee. The filter holder is also detachable for easy cleaning.

Cable storage



Insulated Jug

The unbreakable stainless steel insulated jug of this Philips coffee machine maintains the perfect temperature and aroma for hours.
