Product Benefits & Features

Lock in nature's goodness, with ColdSense
Automated temperature control with ColdSense. Every time the fridge door is opened and closed; cold sensors react to bring the internal temperature back to normal. Protecting your favourite foods from shock temperature changes, while locking in nature's most subtle flavours.

Manage functions and temperature with Electronic Control
Electronic control gives you the ability to make precise modifications of the temperature and other storage functions. This efficient Fridge Freezer also gives you instant feedback of your adjustments on the digital control panel.
