Dell Inc., is the responsible party for electromagnetic compatibility (EMC) regulatory compliance for the United States and its territories, as defined in Federal Communications Commission (FCC) regulation §2.909 and §2.1077. Dell declares that the object of this suppliers declaration or conformity complies with applicable clauses in Parts 2 and 15 of the US Code of Federal Regulations (CFR) Title 47, FCC.

Pursuant to § 2.938 of the FCC Rules, Dell Inc. ("the responsible party") certifies that, as of the date of first importation or marketing of the product, the responsible party is not identified on the "Covered" list as an entity (nor is an affiliate or subsidiary of such entity) producing "covered" equipment.

This equipment complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This equipment may not cause harmful interference, and (2) this equipment must accept any interference received, including interference that may cause undesired operation.

OBJECT OF THE SUPPLIERS DECLARATION OF CONFORMITY

Type of Equipment…….:	**Portable Computer**
Regulatory Model……..…...:	**P208G**
Regulatory Type or Reference Number……...:	**P208G001**
Trade/Brand Name (make)…….:	**DELL**

This equipment has been tested and found to comply with the limits for a **Class B** digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instruction manual, may cause harmful interference with radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference with radio or television reception, which can be determined by turning the equipment off and on, you are encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the antenna of the radio/television receiver.
- Increase the separation between this equipment and the radio/television receiver.
- Plug the equipment into a different outlet so that the equipment and the radio/television receiver are on different power mains branch circuits.
- Consult a representative of the responsible party or an experienced radio/television technician for additional suggestions.

The FCC regulation §15.21 provides that changes or modifications not expressly approved by the responsible party could void user authority to operate this equipment. Expected and expressly approved modifications include all procedures covered by the user manual, such as changing memory or hard drive or utilization of expansion slots or connectors. The responsible party recommends use of add-in devices that are Class B to reasonably ensure this equipment remains suitable for use in a residential environment. This equipment was tested in a typical configuration.

In accordance with FCC §2.1074, this equipment's unique regulatory compliance identification is provided by the Regulatory Model and/or Regulatory Type. These regulatory compliance identification markings are on the regulatory label affixed to your equipment and should not be confused with marketing name or model of the equipment. To facilitate positive identification, request for regulatory compliance information for this equipment should include the Regulatory Model and/or Regulatory Type. This equipment may be marketed under one or more of the makes and/or marketing names/models of the wholly owned Dell Inc. subsidiaries and brands.
