

STAND DS1 / STAND DS2

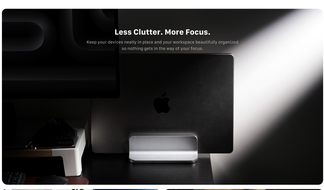

Vertical Docking Stand

Features :

- Crafted from full aluminum alloy with an anodized sandblasted finish, delivering a premium look and durable build.
- Vertical storage helps free up valuable desk space, keeping your workspace clean, organized, and efficient.
- STAND DS1 offers a 17–68mm adjustment range, while each STAND DS2 slot supports 17–43mm, allowing flexible spacing for devices of different thicknesses.
- STAND DS1 features a single-slot design, while STAND DS2 features a dual-slot design that can hold two devices at the same time.
- Suitable for laptops, tablets, keyboards, and more, providing flexible storage for your daily devices.
- Chamfered slot openings paired with full-coverage silicone padding make inserting and removing devices smooth and effortless, significantly reducing the risk of scratches and damage.
- Vertical placement helps reduce contact with the desk surface and improves airflow around the device for better heat dissipation.
- Adjustment tool included for easy slot-width adjustment.
- One-year warranty.

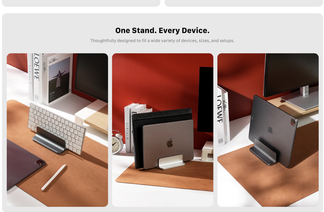

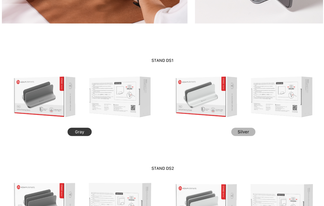

Crafted in Aluminum. Built to Last.

A refined matte finish resists everyday wear, keeping its clean, premium look over time.
