PHILIPS

Features

40 mm speaker drivers

40 mm neodymium speaker drivers deliver superior Hi-Fi sound performance.

2.4 GHz digital transmission

The 2.4 GHz digital transmission prevents compression and data loss between the transmitter and the headphones. The digital signals are converted to analogue signals at the end of the transmission process. The end-result is superb sound quality, with smooth acoustics and minimal data loss.

Docking station

The docking station provides you with a convenient station to place your receiver when not in use. It also takes care of charging the battery.

Extended 100 m transmission

The transmission range is now extended to 100 m, you can enjoy a true hassle-free music experience at home.

Kleer uncompressed audio

Kleer wireless technology delivers uncompressed audio and ensures you can enjoy the true original music.

Self-adjustable inner headband

The inner headband makes it easy to obtain a perfect fit for your head. The mechanism adjusts automatically for comfort.
