MOBILE DRIVE Sq TV

MOBILE HARD DRIVE / 2.5" / USB 3.0

THE MOBILE HARD DRIVE DESIGNED FOR USB RECORDING

USB recording - record TV programmes directly from your TV to an external hard drive**, connected to a USB port on your TV. More and more TVs have this feature enabled. Why not make full use of it? And when you do, why not use a uniquely designed external hard drive which looks stunning next to your TV? The Mobile Drive Sq TV has it all. Looks and performance. For your convenience it also comes with a cradle with which you can fix the Mobile Drive Sq to the back of your TV, should you want to keep it out of sight.

Designed by acclaimed industrial designer Arman Emami from Germany, the Mobile Drive Sq TV features a unique organic design, like nothing you've ever seen before. Smooth lines and a square form factor. To make it less susceptible to scratches and fingerprints, the Mobile Drive Sq TV's enclosure cover is made from sandblasted stainless steel. In short - the Sq is guaranteed to turn some heads! The drive can of course also be used as a standard external hard drive. The Mobile Drive Sq TV boasts the latest USB 3.0 interface, ensuring ultra fast transfer speeds compared to standard USB 2.0. The drive is fully downwards compatible with older USB 2.0 ports, so you can use it on any computer and be ready for the future at the same time! The Mobile Drive Sq TV is powered by the USB port, no need for additional long cables or power adapters. If you're looking for an exclusive looking hard drive with matching performance and ultimate portability features, look no further - the Mobile Drive Sq TV is the drive to have!

FREECOM MOBILE DRIVE Sq TV

- Mobile hard drive in stylish organic design
- Ideal for use as recording media for TV programmes**

- Can also be used as standard external hard drive - the perfect storage expansion for your notebook or desktop computer
- Including Nero backup software, Green Button power consumption application and FHD Formatting tool
- Two years manufacturer's warranty and unlimited free helpdesk support

USB RECORDING

USB Recording enables you to record digital TV programmes to an external storage device directly connected to your TV via USB**. Your external HDD basically acts as a video-recorder, and can replace your current HDD/ DVD recorder. You can also use it to pause live TV. Most new TVs now offer USB recording functionality. The Mobile Drive Sq TV is the first external hard drive dedicated to USB recording. With the included cradle you can easily fix the drive to the back of your TV.

IT'S ALL ABOUT DESIGN

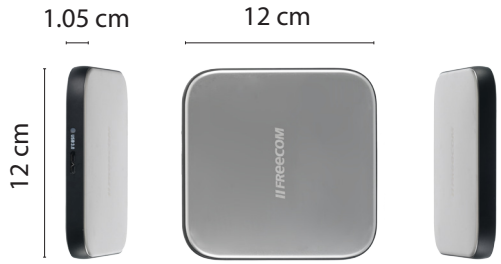

There is nothing standard about the Mobile Drive Sq's design. Flowing lines, rounded edges, and a square form factor. This drive really stands out from the crowd! Designed by Arman Emami, winner of numerous industrial design awards. The uniqueness of the Mobile Drive Sq predominantly lies in its shape. Rather than your standard external hard drive box, this drive has an almost square form factor and features organic shapes with rounded edges.

STAINLESS STEEL

To prevent the drive from scratches and fingerprints, the Mobile Drive Sq's enclosure cover is made out of stainless steel. The surface has been sandblasted to give it an exclusive look and feel. It will look stunning next to your notebook!

WHAT WILL IT HOLD	500GB	750GB	1TB	1.5TB
MP3 songs	100.000	150.000	200.000	300.000
JPEG pictures	330.000	500.000	660.000	1.000.000
DVD movies	110	165	220	330
DivX/Xvid movies	500	750	1.000	1.500

Definitions: 1GB = 1000MB – 1 MP3 song = approx. 5MB / 1 JPEG photo = approx. 1.5MB / 1 DVD movie = approx. 4.5GB / 1Xvid/DivX movie = approx. 1GB.

Some of the hard drive capacity is used for pre-loaded software, formatting and other functions, and thus is not available for data storage. As a result, your operating system may report fewer gigabytes/terabytes.

PRODUCT SPECIFICATIONS

CAPACITY: 500GB , 1TB
INTERFACE: USB 3.0, also connects to USB 2.0*
