# Highlights

### 15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

### Plug and play

Does not require any additional installation or a dimmer switch. This lamp is not suitable for use with dimmers. If used on a dimmer setting, the dimmer is set to 100% brightness.

### Auto memory (sceneswitch)

This Scene Switch lamp has a built-in memory chip which will memorise your last light setting if the switch is turned off for longer than 6 seconds. If you don't often switch between activities, the light will be in your favourite mode when you turn it on again.

### Reset (Sceneswitch)

If multiple lamps are used and they are no longer synchronised, simply toggle the switch (turn it on and off again within 1 second) to restore the lamps to the default factory setting.
