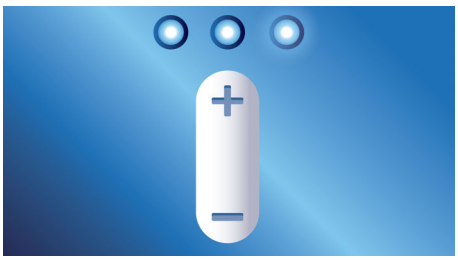
Highlights

9 total brushing experiences



FlexCare Platinum lets you choose from three cleaning modes — Clean, White or Gum Care — and three intensity settings — Low, Medium or High — to create a brushing experience that's perfectly tailored to you.

Improves gum health in two wks

With a special Gum Care mode for focused cleaning to help reduce gingival bleeding and inflammation, FlexCare Platinum is clinically proven to improve gum health in only two weeks.

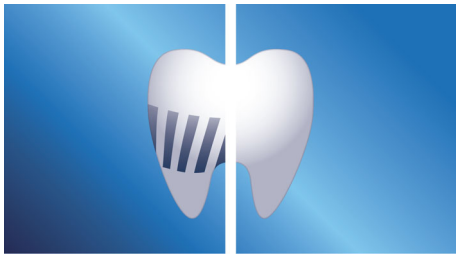
InterCare brush head tech

With extra long bristles to reach deep between teeth and along the gum line, our new InterCare brush head features advanced cleaning technology to remove plaque and polish teeth as well as reminder bristles that fade from blue to white when it's time to change your brush head.

Sonic technology

Unlike a traditional electric or power toothbrush, Philips Sonicare features a patented sonic technology. Sonicare's unique dynamic cleaning action drives fluid between teeth, gently and effectively removing plaque interdentally and along the gum line.

Reaches deep between teeth



FlexCare Platinum reaches deep between teeth to provide superior plaque removal. It is clinically proven to remove 7x more plaque between teeth than a manual toothbrush.

Intuitive Pressure Sensor

FlexCare Platinum features a unique, intuitive Pressure Sensor to help reduce aggressive brushing. The handle gently vibrates to let you know when you're applying too much pressure.

Designed to fit your lifestyle

Our premium travel case lets you store your toothbrush hygienically, while our compact travel charger keeps you topped up when you're on the go. You'll enjoy two weeks of regular use from a single full charge, so being on the move means you needn't miss out on that fresh feeling.

Quadpacer and Smartimer

FlexCare Platinum offers two timers to help encourage thorough brushing. The Quadpacer interval timer indicates when it's time to move to another quadrant of the mouth, while the Smartimer helps you reach the dentist recommended brushing time of two minutes.
