Benefits

Superior listening experience

- Crystal-clear (2.4 GHz) digital transmission
- Acoustically tuned speakers for outstanding sound quality

Provides comfort for prolonged use

- Self-adjusting inner headband ensures a comfortable fit
- Pivoting ear shells ensure a comfortable fit

Ease of use

- Quick charge feature for speedy recharging
- Store your receiver on the convenient docking station

Features

2.4 GHz digital transmission

The 2.4 GHz digital transmission prevents compression and data loss between the transmitter and the headphones. The digital signals are converted to analogue signals at the end of the transmission process. The end-result is superb sound quality, with smooth acoustics and minimal data loss.

Acoustically tuned speakers

Acoustically tuned speakers produce pure, balanced sound with superb clarity and precision in both the high tones and deep bass levels.

PHILIPS

Self-adjusting inner headband

The inner headband of these Philips headphones makes it easy to obtain a perfect fit for your head. The mechanism adjusts automatically for comfort.

Smart and quick charging

The smart and quick charge feature enables the battery to be fully recharged within a very short time span. The remaining power capacity present in the battery is determined by an internal circuit, so that the incoming voltage can be optimised for a quick recharge while at the same time maximising the battery lifespan.
