Highlights

4.6cm (1.8") graphical display

High contrast, 4.6cm (1.8") white on black graphical display

Caller ID*

Sometimes it is good to know who is calling before you answer. And our Caller ID lets you keep track of who is on the other end of the line.

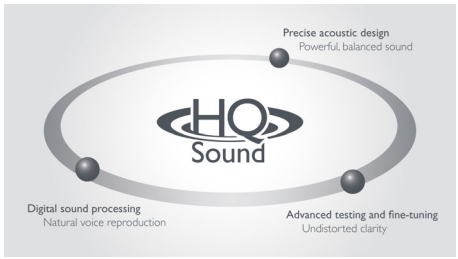
Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

Handset speakerphone

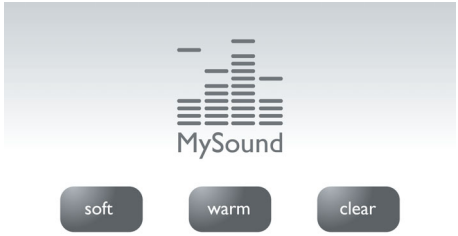
Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

HQ-Sound



Philips cordless phones with HQ-Sound: build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything – high quality components, digital signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.

MySound profiles



Sound perception is subjective, and everyone has their own listening preference. MySound brings personality back to every conversation by allowing you to choose the audio profile that best matches your sound preferences: Clear – to make voices sound crisper and clearer; Soft – for friendly, softer tones; Warm – to make voices sound welcoming and warm.

Up to 16 hours talk time

Up to 16 hours of talk time on a single charge

Keypad backlight

The soft white backlight makes keys easy to read in low light conditions and at night.

Micro-USB connector

The integrated micro-USB connector socket on the base unit ensures that the phone can stay powered via a pre-charged power bank, allowing you to make calls even if the power cuts out. The power bank charging feature supports most power bank products with which are able to provide a minimum output current below 85mA without automatic shutdown. Power bank sold separately.

Three-field phonebook entries

These days most people have multiple contact numbers. Our contact list makes it easier for you to manage your phone contacts. Simply save three phone numbers for up to 100 contacts with a choice of three different field names for home, work or mobile.
