Highlights

AquaClean filter

AquaClean

Our new and patented innovation, AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter at machine request, you will not need to descale your machine for up to 5000 cups, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your coffee machine

User Profiles

Store the length of any coffee beverage according to your personal taste. You will be able to drink espresso, coffee and all other beverages always as you prefer, at the touch of a button.

3 beverages

Enjoy your favourite drinks for your special moments. Whether you crave for an espresso, a cofffee or a milk based recipe, your Super-automatic machine delivers a perfect in-cup result with no hassle and in no time!

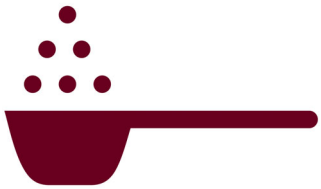
Classic milk frother

The Classic Milk Frother, which baristas also call Pannarello, dispenses steam to help you easily prepare soft milk foam for your cappuccino. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Customize your coffees

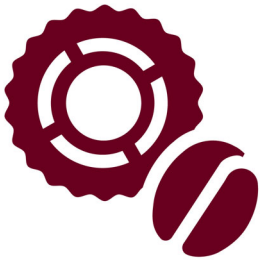
This Super-Automatic machine offers an abundance of indulgent options to customize your beverage to your taste. You can easily personalize and memorize length, strength and temperature for each drink. Feel free to explore, experiment and dream up any drink!

Powder Option



Sometimes it's nice to have the option of a full-bodied, delicious coffee, without the caffeine kick. Thanks to the Powder Option you can make decaffeinated coffee whenever you please.

100% ceramic grinders



Ceramic material ensures long-lasting performance and silent operation while not deteriorating. This means you coffee will be always ground like the first time, delivering the best of your beans for more than 15.000 cups.
