Unleash all the goodness into your glass

MicroMasticating extracts up to 90%* of the fruit

Philips innovative MicroMasticating technology is designed to open up the cells of your fruits and vegetables to squeeze the maximum out. It makes nutritious juices and 100% natural sorbet. All parts can be rinsed clean in 1 minute.

A juicer you can finally rinse clean
- Innovative drip stop keeps your counter clean
- LED lights give you reassembly feedback
- Unique no sieve design for cleaning in under 1 minute
- Easily detachable and rinsed clean without any kitchen tool

Extract all the goodness from fruits and vegetable
- Juice all your favorites, including bananas and mangos
- Include leaves, greens and nuts in your drinks
- MicroMasticating extracts up to 90%* of the fruit
- Guilt free sorbet from natural ingredients

Thoughtfully designed for your kitchen
- Juice directly into your glass
- Inspiring recipe book included
- Detachable parts can be stored in the pulp container
- Slim juicer with all integrated parts

PHILIPS

Highlights

Directly into your glass

Juicing directly into the glass allows you to tailor each glass to the taste of your family members, to avoid using and having to clean unnecessary parts and keeps your counter top clear.

Innovative drip stop

Fully integrated drip stop allows you to stop between juicing sessions and keep your counter top clean at all times. Simply push the bottom of the juice outlet and without wetting your fingers the juice flow will stop.

Inspiring recipe book

Selection of your recipes and ingredients is an important part of your juicing experience. In this book we provide inspiration in 40 recipes and give you full guidance on the health benefits you get from those recipes.

Integrated storage

All smaller removable parts of the juicer, such as the tray, the pusher and the juice jar can be stores inside the pulp container. This way you keep all parts safety stored and always know where to find them for your next juicing session.

Soft fruits to hard vegetables

Make delicious healthy juices from soft fruits and hard vegetables. You can juice all your favorite combinations and use this products even for those especial starch ingredients that are normally very difficult to juice such as bananas or mangos.</

Leaves, greens and nuts

Leaves and greens full of fibers are also great ingredients for healthy juices and they can all be processed in this juicer. Wheatgrass, spinach and many others could be an important health adder to your daily juices with MicroMasticating technology. You can even use certain kind of nuts, like the almond to prepare almond milk.

LED feedback

LED gives you feedback when operating this juicer. After reassembling you will know when the product is ready to juice again of if you still need to place the parts in the right places. Everything with your safety in mind.
