Highlights

100% food-grade lubricant

100% food-grade lubricant on motor shaft seal & bearings

Waterproof cap at coupler

This waterproof cap prevents water from entering the coupler, which makes washing safer

Power connection cover

This cover prevents water from entering the power connector, making washing safer

Twin boomerang-shaped blade

The specially designed twin boomerang-shaped blade provides finer cutting performance. The two serrated wings bent down at different angles, which results in a more effective bean contact surface during cutting. Additionally, the two side wings improve bean distribution for optimal cutting performance.

Cageless design

The cageless design and smooth surfaces without screws and protruding edges are easier to clean

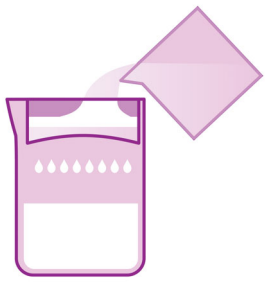
"Easy Clean" button

Pressing the "Easy Clean" button starts preliminary cleaning by heating up and stirring the water, allowing for easy cleaning at your convenience with less effort

Enlarged bottom radius

The enlarged bottom radius of the inner pan allows for easy reach, so you can give it a clean sweep in one go.

Specially designed sieve



Finish filtering in one pour without stirring thanks to the specially designed sieve

Favorite drinks made easily

Making your favorite drink is easy by selecting the right program, including dry/soaked soymilk, five grains soymilk, rice paste, veggie/ fruit juice & vegetable puree soup
