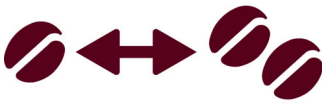
Adjust the length and 5 grinder settings

Double Cup
Enjoy and share your favorite coffee thanks to the double cup function

Gusto perfetto

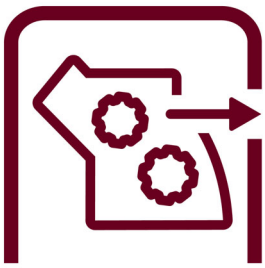


Gusto Perfetto is self learning technology that tracks constantly the beans you use to prepare your drinks. If it detects a change in the type of beans used, it automatically adjust the dosing in the brew chamber to always ensure a consistent result in cup

Quick Heat Boiler

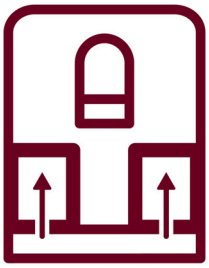
Say goodbye to lukewarm coffee. The Quick heat boiler ensures a hot coffee and cappuccino for you family from the first cup, in no time. The secret is in its light aluminum and stainless steel body, which can reach hot temperatures, fast.

Removable brew group



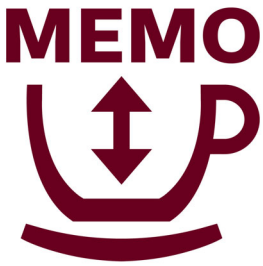
The brewing group is the heart of every super-automatic coffee machine, and should be cleaned regularly. The fully removable brewing group allows you to clean it thoroughly just by rinsing it under the tap

Small size and frontal access



It doesn't matter how big your kitchen is: this machine fits even the smallest spaces, and it is extremely convenient as you can access the water and waste containers from the front. Designed for making your coffee enjoyment easier.

User Profiles



Store the length of any coffee beverage according to your personal taste. You will be able to drink espresso, coffee and all other beverages always as you prefer, at the touch of a button.
