Complete system for a healthier mouth

Our best toothbrush with smart sensor technology

Get the ultimate clean with DiamondClean Smart. Eliminate guesswork with real-time feedback and personalised coaching for superior teeth, gums, whitening and fresh breath. It's more than just a toothbrush - it's a complete oral care solution.

Proven to improve oral health

- Removes up to 10 x more plaque* for a deep clean
- Up to 7 x healthier gums* in just 2 weeks
- Remove up to 100% more stains** in just 3 days

Personalised in-app coaching to perfect brushing

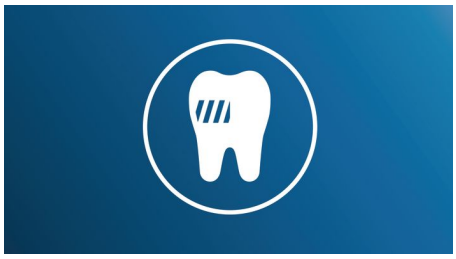
- Guides your brushing and highlights missed areas
- Takes you back to any missed spots for 100% coverage
- Start taking better care of your trouble areas
- Alerts you if you're pressing too hard
- Guides you to reduce your scrubbing

Optimise your brushing

- Brush heads automatically select the optimal settings
- Make sure you're getting the most from your brush head
- Choose from 4 modes and 3 intensity settings
- Premium charging glass and travel case

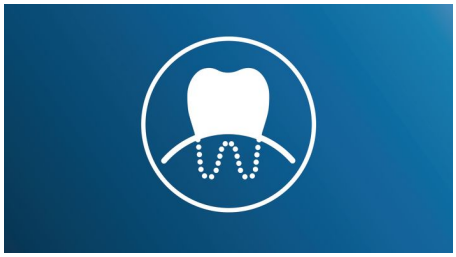
Highlights

Say goodbye to plaque



Click on the C3 Premium Plaque Control brush head to experience our deepest clean. With soft flexible sides, the bristles contour to the shape of each tooth to provide 4 x more surface contact*** and remove up to 10 x more plaque from hard-to-reach areas*.

Care for your gums

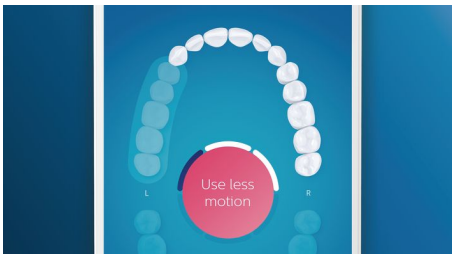


Click on the G3 Premium Gum Care brush head to improve your gum health. Its smaller size and targeted gumline bristles deliver gentle yet effective cleaning along the gum line, where gum disease starts. It's clinically proven to deliver up to 100% less gum inflammation* and up to 7 x healthier gums in just two weeks.*

Whiter teeth, fast

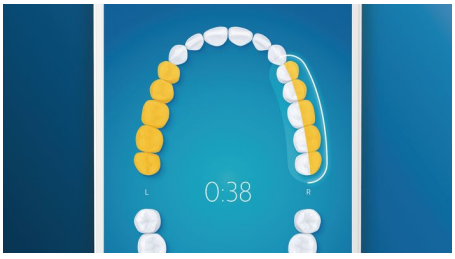
Click on the W3 Premium White brush head to remove surface stains and reveal your whitest smile. With its densely packed central stain removal bristles, it's clinically proven to remove up to 100% more stains in just three days.**

Never miss a spot



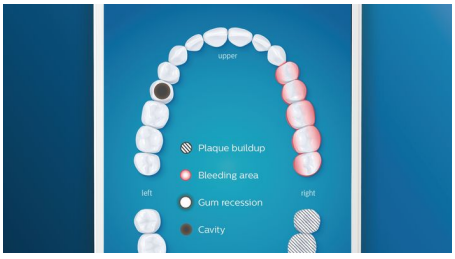
The Philips Sonicare app lets you know when you've achieved a thorough clean, and coaches you to be a better, more mindful brusher.

TouchUp feature



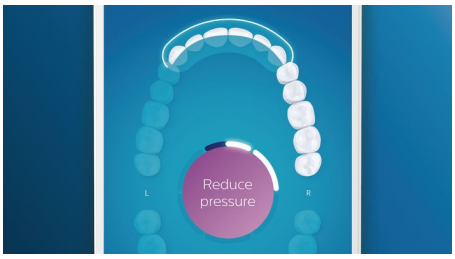
If you happen to miss a spot while brushing your teeth, your app's TouchUp feature will show you. You can then go back for a second pass, and be confident you are getting a complete clean, every time.

Focus areas and goal-setting



Any trouble areas your dentist has pointed out? We'll highlight them on your in-app 3D mouth map and remind you to pay extra attention to these areas.

Too much pressure?

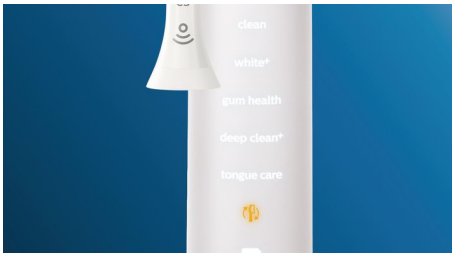


You might not notice when you brush too hard, but your DiamondClean Smart will. If you use too much pressure, the light ring on the end of your handle will flash. This is a gentle reminder to ease off the pressure and let your brush head do the work. 7 out of 10 people found that this feature helped them to become a better brusher.

Easy does it

With an electric toothbrush, you let the brush do the work. We've built a scrubbing sensor into your handle as a gentle reminder to reduce scrubbing. This way, you can improve your technique and get a gentler, more effective clean.

BrushSync mode pairing



Wondering which mode and intensity you should use? Wonder no longer. A microchip in your brush head tells your DiamondClean Smart which one you're using. So if you click on a gum-care brush head, for example, your toothbrush knows to select the optimal mode and intensity to provide gentle yet effective care for your gums. All you need to do is to press the power button.

Specifications

Modes
Clean: For exceptional everyday cleaning
White+: To remove surface stains
