Highlights

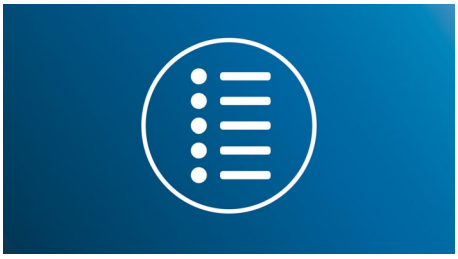
Remove up to 10x more plaque

Click on the AdaptiveClean brush head to experience our deepest ever clean. You get 4x more surface contact** to remove up to 10x more plaque in hard-to-reach areas,* and a truly deep clean along the gum line and between teeth.

Look after those gums

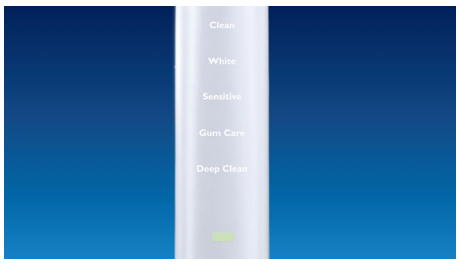
With optimal cleaning from your DiamondClean, gums will become healthier in 2 weeks*. Removing up to 7x more plaque along the gum line than a manual toothbrush*, you'll get your healthiest smile.

5 modes to clean your way



With DiamondClean, you get a truly refreshing clean every day. Our 5 modes cover all your brushing needs; Clean mode – for exceptional daily cleaning, Gum Care – to gently massage gums, Deep Clean – for an invigorating deep clean, Sensitive – for gentle yet effective cleaning of sensitive gums, and White – the ideal mode to remove surface stains.

Extra deep cleaning

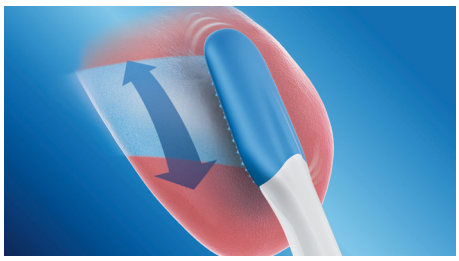


Our Deep Clean mode means you can really focus on specific areas, paying them extra attention. We've combined our unique brush head motion with an extended 3 minutes of brushing time so your teeth get a truly deep clean.

Up to 2x healthier teeth

Click on our AdaptiveClean brush head for a deep, gentle clean that leaves gums up to 2x healthier than a manual toothbrush. Soft rubber sides flex along every contour of your teeth and gums to absorb any excess pressure. Bristles can then reach deep between teeth giving you a comfortable, effective deep clean.

Philips Sonicare TongueCare+



The porous surface of the tongue is the number one place in the mouth where bacteria like to settle, and the bristles of your toothbrush just can't reach them all. The Philips Sonicare TongueCare+ brush head transforms your Philips Sonicare toothbrush into a high-tech tongue cleaner in just one click. It uses sonic power to break up and clean away debris at 31,000 strokes per minute. The 240 flexible MicroBristles deep clean, sweeping away bad breath bacteria hiding below the surface.

BreathRx tongue spray

Smelly VSC gases are no match for our BreathRx tongue spray, which is proven to kill odor-causing bacteria and neutralize bad breath instantly. The special formula coats your tongue and keeps it lubricated for a gentle cleaning experience with the TongueCare+ tongue brush. The cool mint flavor leaves your mouth feeling fresh and clean.

QuadPacer and Smartimer

It takes just 2 minutes to thoroughly brush your teeth. Our QuadPacer lets you know when you've spent the optimal amount of time on each section of your mouth while our Smartimer signals when your total time is up. Together they help you reach your recommended brushing time, every time.
