FWM9000

# Powerful, clear and magnificent sound

## Obsessed with sound

Sass up music enjoyment on the FWM9000 with 1980W RMS and 19900W PMPO, dual subwoofer for deep bass, multi-colored disco lights and UniSound for clear natural sound. Also enjoy access to USB devices and Rip-plus for one-touch MP3 recording.

### Powerful sound you can hear and feel

- Dual subwoofers for superb deep bass
- MAX Sound for instant power boost
- Dynamic lighting for dancing to the beat
- UniSound for natural and crystal-clear sound
- 19900W PMPO/ 1980W RMS total output power

### Multiple source MP3 music

- Compatible with MP3-CD
- Dual USB Direct for MP3 playback and transfer
- Rip music from CDs, radio and karaoke onto USB device
- MP3 Link for portable music playback
- Optional dock for convenient playback from your iPod/iPhone

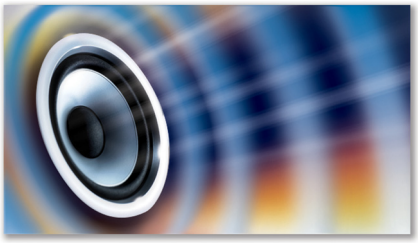

### Easy to use

- Music transfer between 2 USB for easy music sharing
- 3-disc changer for convenient multi-disc playback

PHILIPS

# Highlights

## MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.

## MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

## 3-disc changer

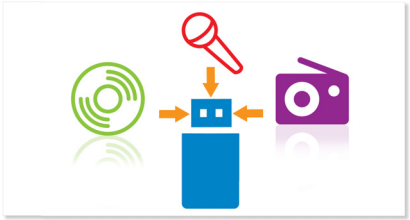

With a three-disc changer for music playback, you can choose between three different CDs inside the device at any one time. This convenient feature allows you to savor a variety of music while saving you precious time from changing CDs frequently.

## Dual USB Direct

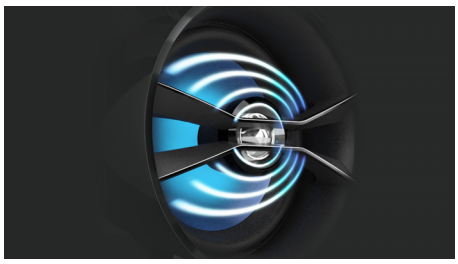

Dual USB Direct for MP3 playback and transfer

## Rip music onto USB device

Rip music from CDs, radio and karaoke onto USB device

## UniSound

Get ready for music that is undeniably clearer and more natural. The UniSound technology harnesses acoustic design and engineering expertise to deliver sound the way it was meant to be heard. In conventional speakers, the tweeter and woofer deliver sound from different locations. This creates strong interferences that distort sound, resulting in unnatural, flat and stifled audio. UniSound frees music by placing the tweeter and woofer in unique positions and incorporating rigorous crossover engineering, vastly reducing interference and delivering natural sound that is true to the original.

## Optional dock

Attach this dock to your home theater system and you can enjoy your music, videos and pictures from your iPod devices and iPhone. Dock is sold as an optional accessory.
