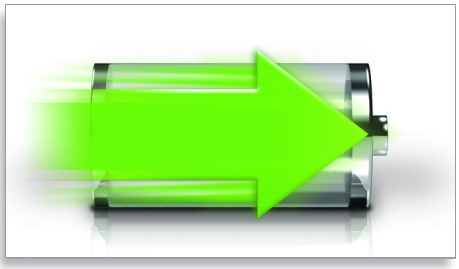
Made for iPod

Works with iPhone

Highlights

Delivers more power



Don't sit around waiting for your device to charge! The higher power output of this charger ensures your device is fully charged in a shorter amount of time compared to standard, less powerful chargers.

Sync and charge cable included

The included 30-pin to USB cable is essential for syncing your iPhone or iPod with iTunes, and for charging via your computer or USB charger. Carry it with you, keep it at your desk, or replace the one you lost so you're always able to connect and charge when you need to.

Works with USB-based devices

The universal unit has a USB connection for use with your USB-based device via the device's USB cable which you already own or can purchase separately.
