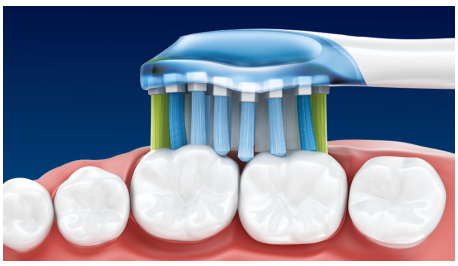
Highlights

AdaptiveClean brush head



Soft, flexible sides made of rubber allow the bristles to conform to the unique shape of patients' teeth and gums to provide up to 4x more surface contact*. The brush head's flexibility helps the bristles gently track along the gumline and absorb excessive brushing pressure. Enhanced sweeping motion delivers a unique in-mouth feel and superior cleaning along the gumline and in hard-to-reach areas*. Proven to remove 10x more plaque than a manual toothbrush in hard-to-reach areas*.

BrushPacer and Smartimer

The BrushPacer tracks brushing through six segments of the mouth for a complete clean, while the Smartimer ensures that patients brush for the full two-minutes as recommended by dental professionals.

Customizable modes

With three modes, Clean, White and Deep Clean, and three intensity settings, Philips Sonicare FlexCare Platinum Connected provides a customized experience for optimal comfort.

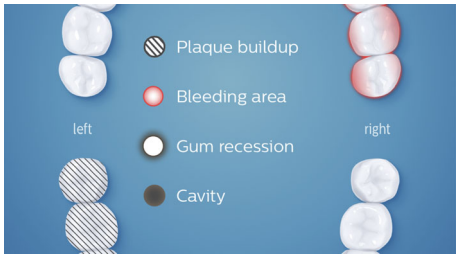
Battery life and travel case

When fully charged, Philips Sonicare FlexCare Platinum Connected retains enough battery life for up to three weeks of use. And with the travel case and charger, on-the-go brushing is easy.

Goal-setting, progress reports

The Philips Sonicare app maintains a running history of a patient's personalized brushing data, allowing them to easily review performance and set daily and long-term goals. After 30 days, patients can generate an in-app progress report summarizing their brushing performance, with the added option of sharing reports with their dental professional via email.

Highlights trouble spots



Based on advice from their dental professional, patients can highlight and address areas on the personalized mouth-map in need of extra care due to plaque buildup, gum recession or another issue.

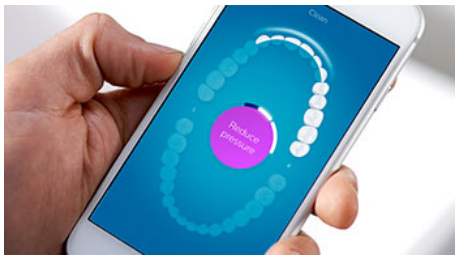
InterCare brush head

Extra-long, high-density bristles reach deeper between teeth to help remove significantly more plaque* interproximally. Ideal for patients with bleeding gums or increased risk of gum inflammation.

UV sanitizer

Patients can keep brush heads clean with Philips UV sanitizing technology. The UV sanitizer that comes with their FlexCare Platinum sonic toothbrush is specifically designed to help kill germs on brush heads. The sanitizer distributes sanitizing light around the entire top of the brush head, helping to kill up to 99% of bacteria.

Smart Sensor Technology



Three smart sensors send personalized brushing data to the Philips Sonicare app. Location sensor shows patients where they're brushing too little for better coverage. Scrubbing sensor helps guide patients to reduce scrubbing for optimized technique and a deeper, more gentle clean. Pressure sensor tracks brushing pressure and gently pulsates the handle to tell patients when to adopt a softer touch.

HX9141/07

Built-in Bluetooth® Smart brushing sensors, 3 modes, 3 intensities, UV brush head sanitizer

Specifications

Modes
- 3 intensities: High, Low, Medium
- Clean: For exceptional everyday clean
- Deep Clean: For an invigorating deep clean
- White: Removes surface stains

Items included
- Handles: 1 FlexCare Platinum Connected
- Brush heads: 1 AdaptiveClean
- Charger: 1
- UV sanitizer: 1

Connectivity
- Bluetooth® wireless technology: Connected brushing app

Compatibility
- Android compatibility: Android phones, Bluetooth 4.0 enabled tablets
- iOS compatibility: iPad 3rd Gen or higher, iPhone 4S or higher, with iOS7 operational system

Design and finishing
- Color: White

Cleaning performance
- Speed: Up to 31000 brush movement/min
- Performance: Remove up to 10x more plaque**
- Health benefits: Improves gum health in only two weeks
- Whitening benefits: Helps naturally remove stains
- Timer: BrushPacer and Smartimer
- Pressure sensor: Vibrates handle to alert user

Ease of use
- Battery indicator: Light shows battery status
- Handle: Slim ergonomic design
- Display: Illuminated display
- Brush head system: Easy click-on brush heads
- Brushing time: Up to 2 weeks

Technical specifications
- Battery: Rechargeable
- Battery type: Lithium ION
- Operating time (full to empty): Up to 2 weeks

Power
- Voltage: 110-220 V

Service
- Warranty: 2-year limited warranty

Issue date 2017-07-13

Version: 1.0.1
