Highlights

Light and design
This design lamp has light with a minimalist essence that defies traditional boundaries, creating light and light forms of inspiring purity and beauty.

Warm white light

This light uses the very latest lighting technology by Philips with the new warm white state-of-the-art high power LEDs providing a glow of light with a colour temperature of 2700 Kelvin.

High light quality

An LED lighting module of 7.5 W produces the equivalent light output as a 40 W incandescent lamp (350 Lumen). Save energy with strong light output.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long life of at least 20.000 hours (which equals 20 years on basis of an average use of 3 hours a day with an amount of at least of 13.000 on/off switching cycles). With the Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

Saves up to 80% energy

The LED lighting technology used in Philips lighting fixtures is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping consumers to save money on their electricity bills and contribute to preserving the environment. For home lighting that's energy-efficient and provides great light in a range of contemporary designs, look for Philips LED products.

On/off switch on article
With the button discreetly integrated into the article, you can easily switch the light on and off.
