Highlights

Dual sensor

With Dual sensor, the new All-in-One cooker accurately controls the temperature and reduces heating fluctuation by 50%*. With this accuracy, different ingredients are cooked just right so that you can enjoy high quality meals and even gourmet cuisine at home easily.

Add ingredient function

Add delicate ingredients at later stage of pressure cook

Reduce function

By simply pressing the Sauce thickening button, sauce and soup will be reduced to create a more intensified flavor.

Programmable settings

Now not only the cooking time but also the cooking pressure can be programmed, which gives you full control to achieve the texture to meet your personal preference. Increase the cooking pressure to get a even more tender result, while decrease it if you find it to be too soft.

Auto keep warm

Food wil be kept warm for up to 12 hours after cooking finishes.

Pressure cooking modes

With the magic of pressure, even tough cuts can be tenderized in minutes. 9 pressure cooking modes help you to create great taste when you are time poor.

Slow cooking modes

Slow cook with high and low temperature settings creates melt-in-mouth tenderness.

Saute/Sear

Saute/Sear to enhance richness of flavors before the magic of cooking begins.

Multi cooking modes

Additional multi cook programs including steaming, baking and yoghurt making to create even more dishes and desserts to dazzle your family and friends.

Tailor-made recipe book

50 tailor-made recipes of local favorites and global cuisine for your inspiration and help you to cook various dishes all-year round.

Control panel on the top

SensorTouch control panel on the top for easy anf comfortable operations.
