Highlights

Incandescent-like warm white

This bulb has a colour temperature of 2,700 K, providing you with a warm, tranquil atmosphere, perfect for relaxing. This 2,700 K light is ideal for home lighting design

A simple LED for everyday use

The Philips everyday LED is the perfect bulb for your basic lighting needs. It provides the beautiful light and dependable performance that you expect from LED at an affordable price.

Replaces halogen reflector

With its beautifully shaped design and familiar dimensions, this is a contemporary lighting, LED capsule. The perfect sustainable replacement for traditional halogen spots.

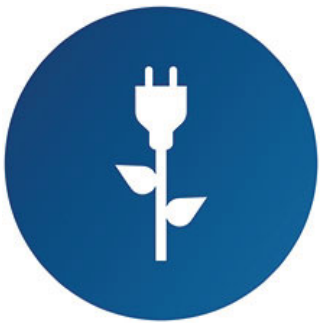
Instant On

No need to wait: Philips LED light bulbs provide their full level of brightness immediately, as soon as they are switched on. Just by turning the switch, your room is at full brightness. There is no slow starting or waiting.

15,000-hour rated average life

With a lifetime of up to 15,000 hours, you can reduce the hassle of frequently replacing your light bulbs, and enjoy a perfect lighting solution for over 15 years.

Saves up to 80% energy



LED technology saves up to 80% energy compared to your standard bulb. It therefore pays for itself and saves you money year after year. It also helps to protect the environment.

Ultimate eye comfort

EnergyUp uses a unique lighting system to control glare for complete eye comfort. A unique combination of diffusers, reflectors and filters distribute the powerful LED light evenly across the whole surface of the screen. This controls glare and prevents bright spots, for diffuse light that is always comfortable and pleasant to experience.

Gentle LEDs, easy on the eyes

It's easy to see how harsh lighting can strain the eyes. Too bright, and you get glare. Too soft and you experience flicker. Now you can gently light up your world with LEDs designed to go easy on the eyes, and create the perfect ambience for your home.

No visible flicker

When your light flickers in quick succession it could be hard on the eyes, cause headaches and even set off an attack for those with photosensitive epilepsy. It's both unpleasant and unnecessary. LEDs can flicker because of their rapid response to the driver current. However, because Philips LEDs are designed so that variations in your driver current's output are minimised, they eliminate the factors that cause flicker. So, you won't see it, not even a hint.

Specifications

Bulb characteristics
- Dimmable: No
- Voltage: 12 V
- Wattage: 7
- Wattage equivalent: 50
- Intended use: Indoor
- Lamp shape: Directional spot
- Socket: GU5.3

Power consumption
- Energy efficiency label: A+
- Power consumption per 1000h: 8 kW·h

Light characteristics
- Colour temperature: 2700 K
- Colour rendering index (CRI): 80
- Starting time: <0.5 s
- Warm-up time to 60% light: Instant full light
- Colour consistency: 6 SDCM
- Light Colour Category: Warm White
- Nominal beam angle: 36 degree
- Nominal luminous flux: 621 lumen
- Suitable for accent lighting?

Durability
- Number of switch cycles: 50000
- Lumen maintenance factor: 0.7
- Average life (at 2.7 hrs/day): 15 year(s)
- Nominal lifetime: 15000 hour(s)

Bulb dimensions
- Height: 45 mm
- Width: 50.5 mm
- Weight: 0.058 kg

Other characteristics
- Mercury content: 0 mg
- Power factor: 0.8
- Lamp current: 730 mA
- Efficacy: 88 K

Rated values
- Rated power: 7 W
- Rated lifetime: 15000 hour(s)
- Rated beam angle: 36 degree
- Rated peak intensity: 1400 cd
