PHILIPS

Highlights

Forms and materials

Philips inStyle lighting fixtures are designed to fit perfectly with the best of all interior decorations, offering multiple styles to blend perfectly in anyone's home. With many applications and finishes, they combine well with features like curtains, furniture, paint and accessories to complete the look you desire. Careful attention to detail and design helps you to express your personal style for interior decoration just the way you want it. This means creating an inviting ambience and surroundings that you, your friends and family will all enjoy.

Multiple applications

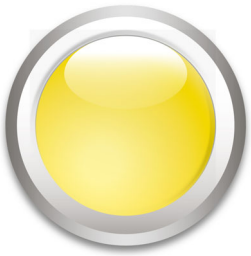

If you enjoy design and like to experiment with the latest styles and themes in your home, try Philips inStyle. It's a range of decorative suspension lights, wall lights, ceiling lights, floor and table lamps made from premium materials that come in a variety of colours.

High Power LED

The LED module of this lamp is a uniquely developed solution by Philips combining 3 LEDs in a synthetic and aluminium housing. This technique enables optimal light output and a 100% uniform light colour.

Warm white light effect

Light up your home with warm white light effects thanks to the latest LED innovation. Philips introduces the latest generation of warm white light high power LEDs, reaching a colour temperature of 2700 Kelvin. Taking the Philips lighting fixtures to the next level, this innovation lets you combine elegance and ambience with light and energy efficiency.

High light quality

An LED lighting module of 7.5W produces the equivalent light output as a 40W incandescent lamp (350 Lumen). Save energy with strong light output.

Dimmable

Adjust the light intensity of the Philips LED lights with a dimmer switch (not included).

This makes the light ideal for creating an ambience for any occasion, whether a cosy meal for two or chilling out with family and friends in your living room. Philips tested a number of wall dimmers that have proved to be compliant with our LED lights. A list of compatible dimmers is available in the downloads and support section.

Energy saving

This Philips light conserves energy compared to traditional light sources, helping you to save money on your electricity bills and do your bit for the environment.

Extremely long operating life

A light source you can trust. Philips LED lights offer an extremely long-life of at least 20,000 hours (which equals 20 years based on an average use of 3 hours/day with at least 13,000 on/off switching cycles). With Philips LED lights you won't have to worry about maintenance or lamp replacement while having the perfect light ambience in your home.

Specifications

Design and finishing
- Material: metal
- Colour: white

Extra feature/accessory incl.
- PowerLED integrated
- Compatible with wall dimmer
- Adjustable height

Product dimensions and weight
- Height: 6.8 cm
- Length: 16.1 cm
- Width: 16 cm
- Net weight: 1.510 kg

Technical specifications
- Mains power: Range 220 V–240 V, 50-60 Hz
- Bulb technology: PowerLED, Safety Extra Low Voltage
- Number of bulbs: 1
- Wattage bulb included: 7.5 W
- Maximum wattage replacement bulb: 7.5 W
- Light colour: 2700K warm white
- Lamp lifetime up to: 20,000 hrs
- Beam angle: 40°
- IP code: IP20, protection against objects bigger than 12.5 mm, no protection against water
- Class of protection: I - earthed

Service
- Warranty: 2 year(s)

Packaging dimensions and weight
- Height: 17.4 cm
- Length: 17.1 cm
- Width: 8.5 cm
- Weight: 1.720 kg

Miscellaneous
- Especially designed for: Living Room and Bedroom, Kitchen
- Style: Modern
- Type: Ceiling light

Issue date 2018-03-16

Version: 2.0.1
