- BrushSync automatically selects the best mode for you
- Always know when to replace your brush heads

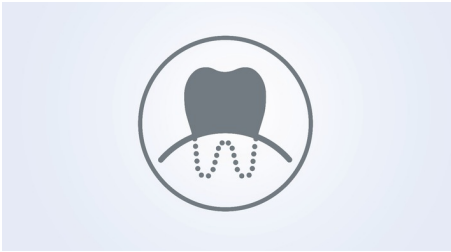
**Enjoy a stylish and user-friendly design**
- Simple to charge and style to boot
- USB charging travel case charges your handle anywhere

# Highlights

### Removes up to 10x more plaque*

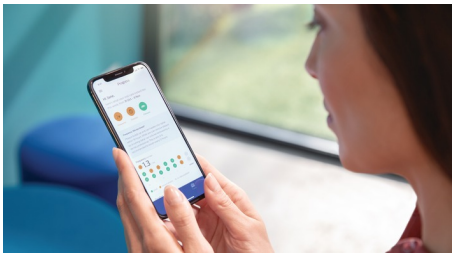
Know you're getting the deepest possible clean with The C3 Premium Plaque Defence brush head. The soft, flexible bristles are designed to curve around the contours of your teeth, giving you 4x more surface contact** and up to 10x more plaque removal from hard-to-reach spots.

### Up to 7x healthier gums*



Focus on improving your gum health with the G3 Premium Gum Care brush head. Its smaller size and targeted gum line bristles make it the perfect way to keep this area gum disease free. People who use this brush head have up to 100% less gum inflammation* and up to 7x healthier gums in just two weeks.*

### Progress Report



ExpertClean gives you the guidance you need to improve and maintain healthy brushing habits in between dentist checkups. Built-in smart sensors let you know when you're using too much pressure, and by connecting your brushing experience to the Sonicare app, a personalized Progress Report helps you stay on track, to see how much you've improved over time.

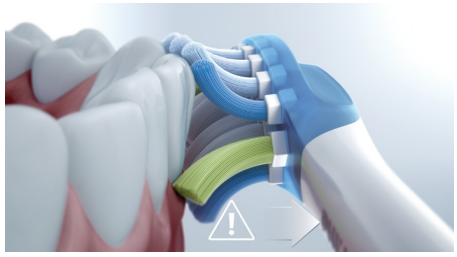
### 4 modes, 3 intensities

ExpertClean comes with Clean, White+, Gum Health and Deep Clean+ to take care of your brushing needs. Clean mode is for exceptional everyday cleaning, White+ is for removing stains, Gum Health provides a gentle yet effective clean for gums and Deep Clean+ gives you an invigorating deep clean. Three intensities allow you to choose between a higher setting to boost your clean and a lower one for more-sensitive mouths.

### Smart brush head recognition

Smart brush heads ensure you're using the right mode and intensity for the best possible clean. For an example, say you're using the G3 Premium Gum Care brush head. Your ExpertClean's BrushSync technology will automatically sync your brush head with the Gum Health mode to help give your gums a clean bill of health.

### Built-in pressure sensor



You might not notice if you're brushing too hard, but your ExpertClean will. If you need to ease up, the toothbrush will make a pulsing sound. It's a heads up to let your brush head do the work. 7 out of 10 people found this feature helped them become a better brusher.

### BrushSync replacement reminder

All brush heads wear out over time, so you'll want to keep an eye on yours to make sure you're still getting a great clean. Our BrushSync technology tracks how long you've been using your brush head for, and how hard you've been brushing. The BrushSync replacement reminder on your handle and a short beep gives you a heads up when it's time to replace it.

### C3 Premium Plaque Defence

The Premium Plaque Control brush head is designed to give you your deepest clean yet. Soft flexible sides and bristles perfectly curve around the contours of your teeth, giving you 4x more surface contact and helping target hard-to-reach spots*.
