- Length: 27 cm
- Width: 27 cm
- Weight: 2.200 kg

Miscellaneous
- Especially designed for: Garden and Patio
- Style: Heritage
- Type: Wall light

Highlights

Warm white light

Light can have different colour temperatures, indicated in units called Kelvin (K). Lamps with a low Kelvin value produce a warm, more cosy light, while those with a higher Kelvin value produce a cool, more energising light. This Philips lamp offers warm white light for a cosy atmosphere.

Philips bulb always included

High-quality Philips light bulbs are included in the box for achieving the best light effect.

IP44 - weather-proof

This Philips outdoor light is especially designed for humid outdoor environments. It was tested rigorously to ensure its water resistance. The IP level is described by two figures: the first one refers to the protection level against dust, the second against water. This outdoor light is designed with IP44: it is protected against splashing water. This product is most commonly used and ideal for general outdoor use.
